

HOSPITAL DIGEST PROFILE

The **Hospital Digest** is the leading and only healthcare magazine in Kenya that consistently and effectively communicates to the **leadership** and **management** of various healthcare organizations, including; Hospitals, clinics, nursing homes and pharmacies.

A monthly publication by the **Association of Private Hospitals, Kenya**, the **Hospital Digest** not only disseminates timely and relevant industry information to the **leadership** and **management** of these healthcare organizations, but also provides a unique platform for industry service providers to showcase products or services that are considered essential towards strengthening healthcare operations, enhancing service delivery and quality of patient care.

The **Hospital Digest** has a monthly print-run of **2,000** copies that are directly distributed to the membership of the **Association of Private Hospitals, Kenya**, which includes; **890+** hospitals, **680+** pharmacies, **190+** clinics and **80+** nursing homes and a digital copy that is widely circulated to other healthcare organizations either directly or indirectly through affiliate associations.

The **Hospital Digest** communication is deliberately designed to address healthcare-specific challenges and provide related solutions that will support decision making within the various healthcare organizations. This communication is strongly guided under the pillars of; Leadership & governance, service delivery, health information systems, healthcare workforce, healthcare financing and access to essential medicines.

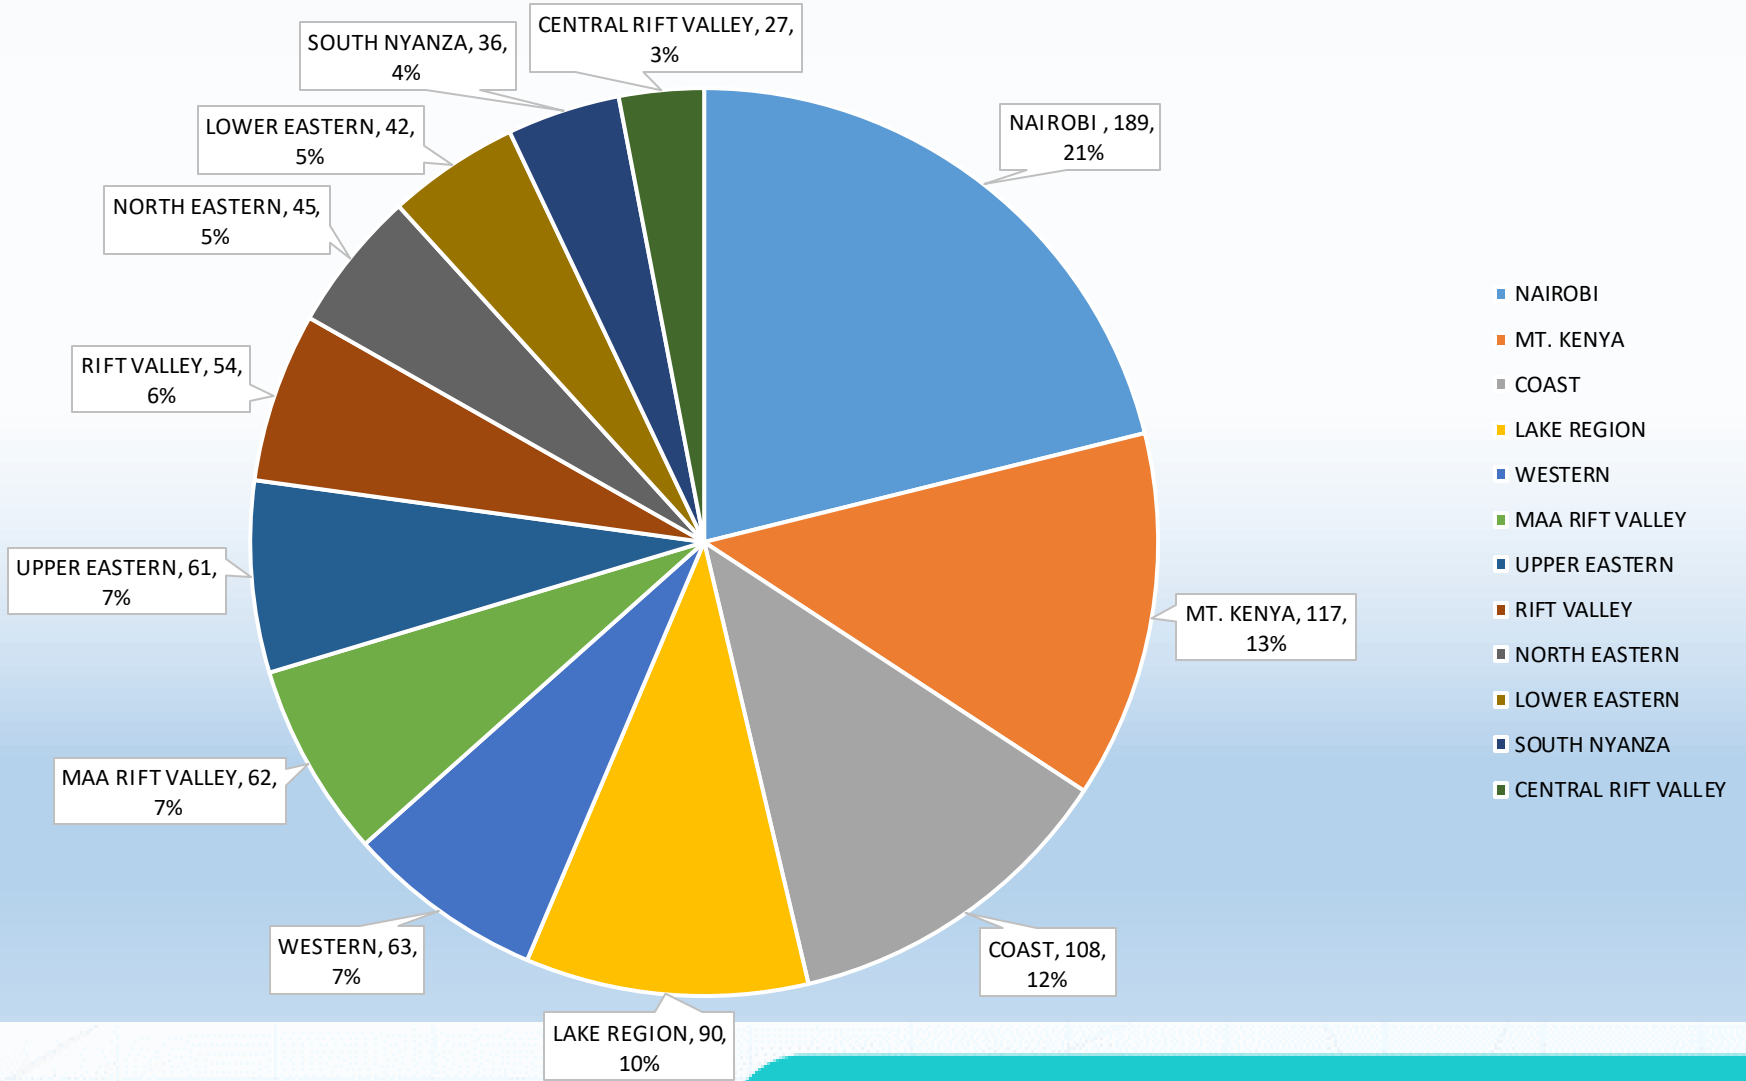

The **Hospital Digest** is strategically positioned to be a strong reference point for applicable industry information and the most preferred medium for brand communication by industry service providers.
